Understanding Tort Law

Exam board: AQA Level: A-level Subject: Law First teaching: September 2017 First exams: Summer 2019 This title has been selected for an AQA approval process. Accurately cover the breadth of content in the new 2017 AQA A-level specification with this textbook written by leading Law authors, Jacqueline Martin, Richard Wortley and Nicholas Price. This engaging and accessible textbook provides coverage of the new AQA A-level Law specification and features authoritative and up-to-date material on the important changes to the law. - Book 2 includes the second section of all mandatory units and both the Human Rights Law and Contract Law optional units. - Important, up-to-date and interesting cases and scenarios highlight key points. - Discussion and activity tasks increase your students' understanding of more difficult concepts. - Practice questions and 'check your understanding' questions to help you prepare for your exams. Authors: - Jacqueline Martin LL.M has ten years' experience as a practising barrister and has taught law at all levels. - Richard Wortley has taught law at all levels. He has held a number of examining and assessing roles over the past 25 years. He retired from a management position in a large FE College to work freelance in law teacher support, writing and assessment work. - Nicholas Price is an experienced teacher of Law and an A-Level Law textbook author.

AQA A-level Law for Year 2

Tort Law: The Essentials is part of Aspen's new Essentials Series, which takes a "forest rather than the trees" approach by first exposing students to the subject as a whole before delving deeply into individual legal rules. This insightful paperback concentrates on the fundamentals and uses an informal, personal style to explain the essential concepts and doctrines of tort law. Suitable for use with any casebook, this resource will help students recognize and understand how common themes enhance their ability to comprehend doctrinal issues.

Tort Law

A jurisprudential analysis of criminal liability comparing the views of Austin, Blackstone, Stephen, and others.

An Analysis of Criminal Liability

The law of torts is a vibrant and fast-moving area of the legal system. Unlocking Torts will ensure that you grasp the main concepts with ease providing you with an essential foundation to tort law. This third edition is fully up-to-date with the latest developments in the law and now includes all significant new cases, more discussion of consumer protection and recent information on proposed statutory developments in the area of liability for animals.

Unlocking Torts

This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact.

Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1951.

Negligence Without Fault

The perfect accompaniment to any torts casebook, *The Forms and Functions of Tort Law* covers all the major cases and issues in the standard torts course, sharing Professor Abraham's scholarly insights developed over 25 years of teaching. This analytical text addresses the cases and analyzes their implications, presenting the law of torts within a curricular context and covering the materials that law students are likely to encounter in a variety of courses. The straightforward, readable text in this paperback addresses both rules and policy and presents topics in a way that helps students grapple with the issues more effectively. Organized in the traditional manner, topics covered include intentional torts, negligence, cause-in-fact, proximate cause, defenses, strict liability, nuisance, products liability, damages, tort reform, invasion of privacy, defamation, misrepresentation, and the economic interference torts. Each chapter stands on its own, making the book ideal for use as a classroom text as well as for self-directed reading by students.

The Forms and Functions of Tort Law

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book.

The Foundations of Legal Liability

"This Nutshell provides a comprehensive explanation of the basic principles and rules of American tort law as it exists today. This Nutshell has been used for over twenty-five years by law students, law graduates preparing for the bar exam, and others seeking an overview of tort topics. Coverage includes intentional torts and defenses, negligence and its defenses, strict liability, special liability rules for particular activities (such as landowners' liability, products liability, employers, employees, and contractors, and others), damages, the relation between tort and contract, immunities, survival and wrongful death, defamation, privacy, and misrepresentation. The introductory chapter provides background on the definitional dilemma; functions, goals and justifications of tort law; the evolution of tort law; and the roles of judges and juries. Citations to the Restatement of Torts are included. Discussions frequently include not only the rule but also its rationale for a clearer understanding and to aid memory."

Torts in a Nutshell

Accessory liability in the private law is of great importance. Claimants often bring claims against third parties who participate in wrongs. For example, the 'direct wrongdoer' may be insolvent, so a claimant might prefer a remedy against an accessory in order to obtain satisfactory redress. However, the law in this area has not received the attention it deserves. The criminal law recognises that any person who 'aids, abets, counsels or procures' any offence can be punished as an accessory, but the private law is more fragmented. One reason for this is a tendency to compartmentalise the law of obligations into discrete subjects, such as contract, trusts, tort and intellectual property. This book suggests that by looking across such boundaries in the private law, the nature and principles of accessory liability can be better understood and doctrinal confusion regarding the elements of liability, defences and remedies resolved. Winner of the Joint Second SLS Peter Birks Prize for Outstanding Legal Scholarship 2015.

Accessory Liability

Moral foundations -- The general theory of liability -- The form of liability in tort law -- Battery and trespass to property -- Trespass in general -- Defences to trespass -- Deceit -- The economic torts in the commonwealth : the conventional view -- Reconceptualising the economic torts -- Interference with contract in the US -- Injurious falsehood and malicious prosecution -- The law of negligence -- Miscellaneous issues involving control, injury, and loss -- The law of defamation -- The mind -- Patient consent and the right to self-determination

A Theory of Tort Liability

Christina Brooks Whitman, Francis A. Allen Collegiate Professor of Law, University of Michigan Law School --

Torts

Understanding case law in high-liability areas and performing the job within a legal framework places a criminal justice agency in the best position to defend against a lawsuit. This handbook addresses the problems confronting criminal justice practitioners and their agencies due to the ever-increasing number of civil liability lawsuits. It introduces the reader to civil liability generally and the federal law specifically, while indicating the steps that can be taken to minimize the risk of litigation. *Civil Liability in Criminal Justice* is one of very few texts on the subject that combines applicable case law and related liability research, a valuable feature for current and future policy makers and managers. Ross also provides an overview of current case law in high-liability areas, enhancing student knowledge and practitioner job performance.

Directions Series

Buy a new version of this Connected Casebook and receive access to the online e-book, practice questions from your favorite study aids, and an outline tool on CasebookConnect, the all in one learning solution for law school students. CasebookConnect offers you what you need most to be successful in your law school classes— portability, meaningful feedback, and greater efficiency. *Tort Law: Responsibilities and Redress* presents tort law as a complex but coherent subject. The authors have arranged the materials to be both highly sophisticated and extremely user friendly. This book has been adopted at schools across the country and always receives high praise from faculty and students for its relevant, contemporary cases, extensive and informative notes, and its 500+ page, cradle-to-grave Teacher's Manual. The Fifth Edition of *Tort Law: Responsibilities and Redress* has been updated to reflect the very latest developments in tort law, including discussions of new developments in civil rights law (pertaining especially to excessive force claims against police), as well as public nuisance, toxic torts, and new draft provisions of the Third Restatement of Torts: Intentional Torts to Persons. The book also contains "Check Your Understanding," "Big Think," and "Did You Know?" text boxes designed to enable students to engage in self-assessment, along with a user-friendly page layout. A comprehensive set of high-quality PowerPoint slides covering all principal cases is also available to adopters. New to the Fifth Edition: Additional "Check Your Understanding," "Big Think" and "Did you Know?" text boxes enable students to engage in self-assessment as they proceed through their Torts

class New materials on civil rights litigation, public nuisance, toxic torts and the Intentional Torts provisions of the Third Restatement. User-friendly page layout features helpful photographs, illustrations, and original charts Professors and student will benefit from: Text and notes that are fully up to date on the latest developments in tort law, including new Restatement provisions and the latest decisions from state, federal, and foreign courts. More than 15 years of overwhelmingly positive student and instructor feedback from law schools across the U.S. which demonstrate that Tort Law: Responsibilities and Redress is the most user-friendly Torts casebook on the market. The book is completely contemporary. Classic tort cases are included but, emphasis is placed on modern cases and modern issues that demonstrate tort law's continued importance and relevance. Teaching materials Include: Teacher's Manual, including Sample Syllabi The 500+ page Teacher's Manual has no rival among Torts casebooks. Comprehensive Deck of PowerPoint Slides 200+ PowerPoint slides available to adopters can be adapted for use in class, or to help instructors organize their class discussions. The Outline Tool automatically populates your notes and highlights from the e-book into an editable format to accelerate your outline creation and increase study time later in the semester.

Civil Liability in Criminal Justice

Tort law remains a dynamic field, subject to constant refinement and rethinking. The new Eighth Edition reflects these evolving developments in recent case law and legislative activity, as well as commentary ranging from the ongoing Third Restatement of Torts (Physical Harm) project to the September 11th Victim Compensation Fund. The principal focus of this book is the law of negligence, strict liability, and no-fault as alternative approaches to compensating the victims of accidental harm and creating optimal incentives to safety. This leading casebook covers all major aspects of tort law with expertly edited cases, and original text. It also includes detailed discussions of liability, causation, defamation, privacy, damages, insurance, and tort alternatives.

Tort Law

Basic Tort Law: Cases, Statutes, and Problems: Cases, Statutes, and Problems, Sixth Edition

The Foundations of Legal Liability

Finally, there is a Criminal Law study aid that teachers can recommend to their students with complete confidence: Singer and LaFond's CRIMINAL LAW: Examples and Explanations . Carefully designed to facilitate effective study, and written in a crisp, clear style, this book takes a practical three-step approach: Thorough descriptions explore and explain the concepts under consideration Examples give students an opportunity to test their comprehension by applying the law to contemporary fact patterns Explanations help them measure their mastery of the material and provide suggested answers and feedback Engaging student interest through stimulating hypotheticals, Singer and LaFond make their sophisticated analysis of criminal law not just painless, but actually fun to read. Both comprehensive and contemporary, CRIMINAL LAW: Examples and Explanations, covers provocative and timely subjects in eight major areas: the purposes of punishment Actus Reus and Mens Rea homicide causation inchoate crimes: solicitation and attempt group criminality: conspiracy and complicity rape defenses and excuses

Tort Law and Alternatives

As well as setting out the law itself, the authors examine the principles behind tort law, and discuss some of the issues and debates arising from it.

Basic Tort Law: Cases, Statutes, and Problems

The renowned Richard A. Epstein continues to lead your students to a thorough understanding of the moral, economic, and historical underpinnings of tort law in this new, completely updated and streamlined edition of his very successful casebook *CASES AND MATERIAL ON TORTS*, Sixth Edition, features expanded coverage of toxic torts and joint and several liability revised coverage of product liability the addition of new principal cases, including *Rinaldo v. McGovern*, *Knight v. Jewett*, *In re Amoco Cadiz*, *Pacific Mutual Life Insurance Co. v. Haslip*, and *White v. Samsung Electronics America* Key organizational changes-including a chapter that combines joint, several, and vicarious liability, and the grouping of all the materials on intentional torts in Chapter One-enhance the book's teachability As in previous editions, Epstein makes the highly technical issues of modern tort law manageable. In addition to case materials, he incorporates selections from modern legal scholarship that comment on issues raised but not necessarily fully resolved by the cases. Numerous notes discuss ambiguities in the present law and the desirability of alternative legal rules. Your students will find this book-in its reorganized and revised form-particularly readable. Take a fresh look at *CASES AND MATERIALS ON TORTS*, Sixth Edition-and its excellent *Teacher's Manual*-for use in your next Torts course.

Criminal Law

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. *Tort Law Concepts and Applications*, 2e provides the most comprehensive coverage of substantive American tort law available. This edition features two chapters devoted to intentional torts, two chapters devoted to negligence, and references to the latest cases and statutes. To help students develop in-demand paralegal skills, there are extensive end-of-chapter exercises, online video cases, and an entire chapter devoted to tort practice and applications.

Tort Law

(10)Strict liability torts and Vicarious liability
Strict LiabilityStrict or absolute liability is the legal responsibility for damage or injury, even if the person found strictly liable was not at fault. In order to prove strict liability in tort, plaintiff needs to prove only that the tort happened and that the defendant was responsible for the act or omission. In the case of strict liability in the USA, neither good faith nor the fact that the defendant took all possible precautions is a valid defense. A common example of strict liability is imposing product liability in the case of defectively manufactured products.Strict liability applies especially in cases involving hazardous or dangerous activities.Generally, liability based on a tort only arises where the defendant either intended to cause harm to the plaintiff or in situations where the defendant is negligent. However, in some areas, liability can arise even when there is no intention to cause harm or negligence. For example, when a contractor uses dynamite which causes debris to be thrown onto the land of another and damages a landowner's house, the landowner may recover damages from the contractor even if the contractor was not negligent and did not intend to cause any harm. Basically, society is saying that the activity is so dangerous to the public that there must be liability. However, society is not going so far as to outlaw the activity.Example: Acme Construction Company was constructing a highway. It was necessary to blast rock with dynamite. The corporation's employees did this with the greatest of care. In spite of theirprecautions, some flying fragments of rock damaged a neighboring house. The owner of the house sued the corporation for damages. The corporation raised the defense that the owner was suing for tort damages and that such damages could not be imposed because the corporation had been free from fault. Was this defense valid? No. While ordinarily fault is the basis of tort liability, there are cases in which absolute liability is imposed on the

actor. This means that when harm is caused, it is no defense that none was intended or that due care had been exercised to prevent the harm. Other examples of absolute liability situations would be harm caused by storage of flammable gas and explosives, factories which produce dangerous fumes or smoke in populated areas, and the production of nuclear material. Vicarious liability is the responsibility of the superior for the acts of their subordinate. It is the responsibility of a third party who has the right, ability or duty to control the activities of a violator. Typically liability flows from the relationship of master and servant. The relationship includes the power to direct the servant in the execution of the duties of his/her employment, and to control the acts that no injury is done to third persons. An employer can be held vicariously liable for an employee's tortious act against the person or property of a third party in a transaction of the employer's business. If a negligent act is committed by an employee acting within the general scope of her or his employment, the employer will be held liable for damages. For example, if the driver of a gasoline delivery truck runs a red light on the way to a gas station and strikes another car, causing injury, the gasoline delivery company will be responsible for the damage if the driver is found to be negligent.

Mastering Torts

Useful for practitioners and academics, this title examines the general principles of liability and focuses on the concept of duty. It also considers key developments in legislation, including the Human Rights Act

The Foundations of Legal Liability: Theory and principles of tort

This casebook for law students presents a variety of cases and materials that reflect the alternative visions of tort law as they developed in the 19th and 20th centuries. Organized into 22 chapters, the cases illustrate such topics as proof of negligence, multiple tortfeasors, affirmative duties, modern products liability law, and economic harms. Tort liability in cyberspace--including trespass to chattels, conversion, and defamation--is given extensive treatment in the eighth edition. Editor Epstein teaches law at the U. of Chicago. Annotation : 2004 Book News, Inc., Portland, OR (booknews.com).

The Foundations of Legal Liability: Common-law actions

Both students and instructors will welcome the new edition of Joseph W. Glannon's *The Law of Torts: Examples & Explanations*. This popular study guide provides clear, engaging introductions to the principles of tort law, along with interesting examples that illustrate how the principles apply in typical cases. These distinctive characteristics earned the book its reputation for effectiveness: highly respected author, whose best-selling *Civil Procedure: Examples & Explanations* uniquely entertaining writing style that captures and holds student interest coverage of the standard topics from most Torts courses - intentional torts, negligence, causation, duty, damages, liability of multiple defendants, And The effect of the plaintiff's conduct three-chapter section on Taking a Torts Essay Exam supplies guidance, tips, and sample exam questions and answers the Third Edition introduces important new material: two new chapters on Products Liability, one on theories of recovery in strict products liability cases and one on common defenses to strict products liability claims completely updated text, with citations reflecting the most current law

Cases and Materials on Torts

The Torts Process, Seventh Edition, offers a student-friendly, procedural approach to tort law. By utilizing a problem-based methodology, students are challenged throughout the text with the use of theoretical and real-life situations. This
