Bridges for Complete Beginners

Bridge is a team trick taking game played with a standard 52 playing card deck. The objective is to win as many games to 100 as possible. In Bridge, Aces are high and 2's low. The rank of suits from highest to lowest is: No Trump, Spades, Hearts, Diamonds, and Clubs. Before the game begins, an initial dealer must be chosen. To do so, every player is given a card from a shuffled deck and who ever receives the highest card becomes the first dealer. Ties are broken by a repeated deal. The initial dealer shuffles the deck and the player to their right cuts it. The dealer then passes 13 cards one by one clockwise to each of the 4 players. The dealer position rotates clockwise at the end of each round. Teammates sit across from each other and work together to make bids and win tricks. Another title in the best-selling '25' series, using the same popular format. Over the last fifteen or so years, the 2/1 Game Forcing bidding method has gained substantial popularity, but for various reasons it is not taught in beginner classes. This book is therefore designed for players who are familiar with Standard bidding and are interested in switching to the 2/1 method. It covers basic concepts as well as the differences between 2/1 and Standard auctions, and includes a discussion of more advanced ideas and conventions that fit particularly well with 2/1 methods. Existing books on this topic (notably by Max Hardy and Mike Lawrence) are too advanced and/or too technical for this level of player.

Make the Winning Bid

It is one thing to know the various point ranges and conventions of a bidding system, and yet quite another to be able to apply them correctly at each stage of an auction. This book takes the reader, step by step, through various bridge auctions. The reader is sometimes the opening bidder and sometimes the responder. The goal of a contract in the right strain, and at the right level, is pursued. Judgment and hand valuation are applied at every turn in the bidding, using new information from actions by partner or the opponents as it becomes available. Invitational and forcing bids are discussed as the partners decide whether to stop at a level or move forward. The reader chooses from several options supplied for each opportunity to call. Sometimes there are two bids that are equally correct, but usually only one. These options are weighed and compared. Interference by the opponents is also discussed. The reader should come away from the reading of this book better able to understand and conduct a successful bridge auction. Howard Ringel, the author, is certified as an accredited bridge teacher by the ACBL, but has chosen to teach through the books he writes rather than in a classroom setting. His first book, *"Plan Before You Play,"* has been well received by bridge players nationally, and is also used by various bridge teachers as a text. While that book is on the play of the hand, this new book examines bidding at the different steps in an auction.

Bridge

Another title in the best-selling '25' series, from award-winning author and master teacher Barbara Seagram, and using the same popular format as earlier books. Other titles in the series have revolved around bidding; this one deals with the play of the cards as declarer, a major topic in beginner and intermediate bridge lessons. As usual in this series, basic ideas on the strategies and tactics available to declarer are covered comprehensively in the early part of the book, while in later chapters, more advanced players will find ideas and topics that challenge their own understanding of the game.

This new version of the book uses the same user-friendly approach and features to explain the most important bidding conventions for players who use the ACOL system -which means essentially everyone in the UK and the Commonwealth countries.

Inferences at Bridge

To be successful, a bridge player has to think like a detective, tracking down the distribution of the unseen hands. Although many players are oblivious to them, the tell-tale clues are there, just waiting to be noticed. They are there, just waiting to be noticed. They are there in the auction and in the opening lead. Every time a defender plays a card, declarer receives information. Similarly, everything that declarer does can be turned to advantage by alert defenders. There is even vital intelligence to be gained by thinking about what a player does not do! In this book, you will learn where to look for these clues, and more importantly, how to draw the correct inferences from them. From there, it is only a short step to making bids and plays based on those inferences, and thereby becoming a much better player.

Bridge for Beginners

A must-have book for beginners with easy-to-follow instructions for a complicated card game.

Bridge for Beginners

Bridge is a wonderful game. It is interesting, challenging and frustrating all at the same time. It keeps your brain active and alert and it gives you an opportunity to create new and lasting friendships with like-minded people. “It is rare to find a bridge book that combines simplicity with comprehensive cover of all the basic rules of bridge, and yet this book does exactly that. George builds a solid foundation for the beginner by going through the bidding sequences step by step in a logical and orderly fashion and then presenting examples to show how those steps actually work. I can highly recommend this for those who want to learn the basics. It is also ideal for those who have played and now want to rekindle and update their skills. The book will also work nicely as a manual for teachers who teach beginners.” — Marty Bergen

The Best Bridge Book

When Linda Tafet injured her shoulder and could no longer play golf or tennis, she found a new passion in the game of bridge. She took lessons, and the more she learned the more fascinated she became with the game. Every time she learned something new, she would condense it into her own words on a small index

card. Soon, these cards became a stack, and then she combined the stack into a small three-ring binder. When her bridge friends saw what she was up to, they asked her to make them binders as well, and pretty soon she found herself in the handmade book-making business, selling each book for \$75 each. After selling more than five hundred of these books, Linda decided she was working too hard and could reach more bridge players if she published her book. The Best Bridge Book is a compilation of her original handmade book, now produced as a paperback. Larry Cohen, a very good friend of Linda's and one of the best bridge teachers in the world, edited her book, ensuring that each lesson is correct and easy to follow. Now all bridge players from beginners to advanced can enjoy and learn from Linda's book.

Bridge Bidding Made Easy

A rollicking roller-coaster of a ride through the world of rubber bridge. From opening bids and responses, through the complexities of Jacoby transfers and the Blackwood convention, and why you should lead the fourth highest card of a suit, this book has it all. In fact, its got it in spades! So who is this book for? Well,

everyone. A tall order, maybe, but we think we've managed it. If you're a complete newcomer to the world of bridge, then this book is definitely for you. Want to know what all the fuss is about - but don't understand why a game takes so long - and don't know the rules, or how to begin a game, or keep it going? Then this book explains all that stuff, with lots of examples and tips to get you started. Not a novice but still consider yourself a beginner? Want to improve your bidding technique and learn a few playing tricks? Then this book is also for you. It has a host of accessible guidelines that should help sharpen up your bidding, and some neat pointers as to how you can make more of the hands you are dealt. Or perhaps you've been playing for a while, and want to improve - you've always wondered what "Jacoby transfers" and "cue bids" were all about, and why you should lead with the fourth highest card in a suit: Then there's something here for you too. You'll find some useful bidding conventions and playing guidelines, explained through clear examples and (we hope) lucid explanation. Even if you've been playing for years, and are well on your way to transitioning from an intermediate to an advanced player, this book might still be for you. It contains anecdotes and caricatures you might find familiar and maybe even amusing, and if you find something that, from your seasoned perspective, you take issue with, well - good! We'd like to hear from you, particularly if you include details we can steal without citing you as a contributor, which can go towards adding to, and hopefully improving, future editions of this book.

Treacle Boy's Guide to the Game of Bridge

The standard 52-card deck is used. The suits ranking downward in order are spades, hearts, diamonds, clubs; and the cards ranking downward in order are ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3, 2. There are four players, two against two as partners, who face each other across the table. To determine partners, a pack may be spread facedown for each player to draw a card (not valid are any of the four cards at either end). The players drawing the two highest cards would then play as partners, the highest having choice of seats and cards (when two packs are used) and becoming the first dealer. If five or six wish to play in the same game, the draw establishes precedence: the player lowest in order of precedence sits out until the end of the first rubber, when he replaces the next lowest in the order. If two players draw cards of the same rank, the card of the higher-ranking suit takes precedence over the other. Get your copy today by scrolling up and clicking Buy Now to get your copy today
